400 Pioneer Con 3 1/2, 2	

REMOVED.—Dr. F. J. White has removed to the building west of Willis' Drug Store on King street.

THE THEATER was again filled last evening, to witness the presentation of the Drama of "Lady Audley's Secret." Mrs. Bowers appearing therein as "Lady Audley," supported principally by Messrs. McCollom, Mortimer and Billings, and Misses Corwell and Adams. In the drama presented on the occasion Mrs. Bowers was afforded unusual opportunity for a display of versatility and vivacity, and well did she improve the occasion. If her acting last evening afforded less exhibition of her wonderful force and power, there was compensation in the instantaneous change of voice and manner so startlingly presented last night. To-night will be presented the 5-act comedy of the School for Scandal, with Mrs. Bowers as "Lady Teazle," and Mr. McCollom as "Charles Surface," supported by the entire company. This is advertised as the last night. We hope the inducement will be sufficient to warrant this excellent company in remaining here through this week, giving an entertainment each night and a Matinee Saturday afternoon.

THE LINGARDS, at Piper's Opera House in Virginia City, are meeting with much success. The Enterprise says that on Monday night "every seat was taken and chairs placed in the passages long before the bell rang up the curtain, there being among those present a large admixture of ladies." The familiar comedy entitled the "Admiral" was presented in a very acceptable manner, as was evidenced by the abundant and hearty applause bestowed by the audience. Mr. Lingard in his character songs and representations proved himself entitled to the appellations of "facile and various." Many of his changes were wrought before the eyes of the audience with a readiness and skill which astonished them. As a singer and impersonator of character in song and costume he is unsurpassed by any who have visited this city. Those who remember him with pleasure as he appeared four years since, and have compared, in their minds, his performances then with others in a similar line, will find in his present representations a confirmation of the cherished opinion that in the rapidity, variety and diversity of his changes none have equalled him. All his changes are good, and are very much aided by the facial expressions given, but he was particularly happy last evening in his female characters, his sketch of a well known politician, and representations of Edwin Forrest and Horace Greeley—both the latter being true to the life.

At the spelling match last night, Prof. Flint acted as teacher. Miss Hodgkinson and Miss Whitcomb were the leaders in the first trial, with Miss Hodgkinson's side the winner. In the second trial, Governor Denver and Mr. Drury were leaders. Miss Hodgkinson was declared the champion of the evening. It was a very pleasant affair.

**The Brunswick Mill Affair.** Superintendent Hardy makes a statement in yesterday's Enterprise, giving his version of the trouble at the Brunswick Mill. In this, as in similar cases, there are two sides to the story; and we must say that the Superintendent makes a plausible showing in his own favor. There is a conflict of statement, that will not admit of reconciliation, between the parties. But inasmuch as the APPEAL was the first paper to notice the affair, and gave but one version, the only one we could get, of the difficulty, in justice to Mr. Hardy we give the substance of his statement. Mr. Hardy says he has been much misrepresented in the papers; has been made to appear as a man utterly heartless and wantonly cruel, as it was made to appear that he had discharged a man for attending the funeral of his own child. He said that trouble had been brewing in the mill long before, and what occurred at the time of the funeral of the child was only made an excuse for the trouble which followed. He says that previous to the affair of last Friday a rig was formed against him by the men in the pan room; that the men were running the mill in such a way that they were not crushing as much ore by ten or fifteen tons per twenty-four hours as should have been put through the mill. They did this by over feeding the batteries, by hanging up stamps, by allowing the sand sluices to clog up, and by managing to have something out of order and going wrong all of the time. They had determined that he should not succeed and that they would worry him out of the mill. He denies that he discharged Mr. Hickey for attending the funeral of his child, and asserts that the assault was first made by Mr. Hickey.

**Mad Cow.**—About five days ago a cow got into the enclosure in front of the Warm Springs Hotel, and, in attempting to cross the deep ditch there, fell in. She was discovered and the men about the hotel procured ropes and placed them around her horns and pulled her out. One rope was pulled from her horns, and, as the hostler of the Warm Springs Hotel was trying to take off the other, the cow made a dash at him. By good running and dodging, the hostler succeeded in making his escape, amid the jeers and laughter of those who had secured safe places for themselves. The cow then started up the road toward Carson, and attacked—or made demonstrations as if she would attack—every pedestrian who passed. Young Cleveland, a six and a half footer, who used to be one of the State Prison guards, reluctantly consented to walk in the open field, in passing, having the convenience of a fence between him and the cow, which would not eat, but was on the constant look-out, staring at every passing object with wild eyes. Finally, last Friday the cow became so much exhausted from want of food that she could no longer stand, and she laid down by the roadside, opposite Duffy's ranch. It was then ascertained that she belonged to a drove of cattle belonging to the Heer Brothers of Empire City, and food and water were brought her, both of which she partook. But she had too long neglected food, and finally died, where she first laid down, on Monday, and was hauled away. One pedestrian, to whom she made demonstrations when she seemed vigorous, gave her a wide berth, and remarked that he had been chased by a grizzly bear and a wild Spanish bull, and that he was more afraid of the bull than the bear. But the cow is dead, and pedestrians need now only fear her ghost.

**INCREASE IN POSTAGE.**—The fact that an increase in postage on mail matter of the "third class," under which is included newspapers, may not be so generally understood that a repetition of the facts may not be absolutely required by many. The General Postoffice Appropriation bill, approved March 3, 1875, contained a clause which doubles the postage on newspapers. Formerly one cent prepaid the postage on two ounces of "third-class" mail matter; but in the Act referred to the two-ounce clause was stricken out and one ounce substituted. This was said to have been done ignorantly by Senator Hamlin, who had the bill in charge, and a rumor prevails that the Postmaster General has issued instructions to Postmasters to suspend the operations of the law for a time, in order that the people may become familiar with the new law. If such is the fact, no such instructions have reached the Carson Postoffice. Doubtless the next Congress will repeal this odious amendment; but until that is done the people will have to abide by it as it is. Papers, therefore, weighing over one ounce will have to have a two-cent stamp in order to get carried in the mails of Uncle Sam.

**COLD WEATHER.**—The violent wind-storm of last Saturday culminated in a little snow flurry on Tuesday evening; but it cleared off before 9 o'clock and started in for a regular freezer. Mr. Friend, the jeweler, who keeps a registered thermometer (Fahrenheit) says he recorded 19 degrees during the night. At the Glenbrook Hotel (Vesie's) the thermometer stood at 7 1/2 degrees above zero. So we had thirteen degrees below the freezing point in this city, and 24 1/2 below freezing at Glenbrook. This is as cold as the people herabout require for April.

**IN TOWN.**—E. S. Davis, United States Surveyor General, and Thomas D. Parkinson, civil engineer of Virginia, were in town yesterday.

**NEW POSTHOLE DIGGER.**—E. B. Rail has a posthole digger which is worthy the attention of all fence builders. It is oval-shaped, about six inches in diameter, with a handle about an inch and a half in size. The digger of the hole strikes into the ground with this machine, which holds about six inches of earth, and, when it is filled, pulls it out and dumps it. Any one with this digger can excavate a posthole of the depth of two feet—a fine clear, round hole—in one fourth of the time required to dig it with a spade.

**THE CAPITOL SQUARE.**—The prisoners at the State Prison are engaged in getting out a large lot of blocks of stone to be used in the construction of the wrought iron fence which is to be erected around the Capitol Square, Carson City. The iron posts or uprights of the fence will be anchored in these blocks of stone.

The old plaza fence surrounding the Capitol is now all removed and the ground within the old enclosure has all been plowed. Workmen were yesterday engaged in leveling off the ground, which will be otherwise improved shortly, under direction of the Capitol Commissioners. Proposals will be received by these Commissioners for a wrought iron fence to surround the Capitol up to the first of May.

## ORDINANCE No. 12.

An Ordinance in relation to the manner of paying salaries, fees and compensation of officers and other expenses of the government of Carson City; and other matters relating to city finances.

The Board of Trustees of Carson City do enact:

SECTION 1. All claims against the city for salaries, fees and compensation of officers payable by the city, and for any other expense of carrying on the government of Carson City, shall be presented (properly proven by the oath of the claimant or some one in his behalf) to the Board of Trustees. When allowed in part or wholly, the City Clerk shall draw his warrants in favor of the proper parties for the amount so allowed, on the City Treasurer. Said claims shall be settled upon by the Board of Trustees in the order of their presentation, and if there be no funds to pay warrants when presented, the Treasurer shall endorse thereon: "Not paid for want of funds"—date and sign such endorsement and note the same in a book kept by him for that purpose. Whenever he shall pay any warrant, he shall write thereon in red ink "redeemed," and date and sign the same; and all warrants so redeemed shall be valid vouchers to him in his annual settlements with the Board of Trustees, which shall be made on the third Monday of December annually.

Sec. 2. The City Treasurer shall, when required by the Board of Trustees, inform them in writing in regard to any matter pertaining to the city finances, and make any suggestion or recommendation he may deem proper and calculated to aid in the economical carrying on of the city government.

Adopted April 5, 1875.

H. F. RICE, President.

T. J. EDWARDS, City Clerk.

## ORDINANCE No. 13.

An Ordinance to prevent the destruction of property by fire.

The Board of Trustees of Carson City do enact:

SECTION 1. No stove-pipe passing through any wooden wall or roof in Carson City shall be placed in said wall or roof within less than three inches of wood or other combustible substance; and all such stove-pipes now in use in said city, not in conformity herewith, shall be made to conform hereto within ten days after the taking effect of this ordinance.

In all such cases, a collar of iron, tin, zinc or earthenware, shall be used, so as to prevent any part of any stove-pipe from being nearer than six inches to wood or any other combustible material.

Sec. 2. It is hereby made the special duty of the City Marshal and police to see that the provisions and requirements of the first section of this ordinance be strictly complied with and enforced; and when they shall find any stove-pipe used in such manner as to require change in order to comply with the provisions of this ordinance, they shall notify the owner thereof to make the requisite change within ten days after receiving such notice.

Sec. 3. Hereafter no lamp or gas burner shall be so arranged or used that the top thereof will be nearer than three feet to any wood or any other combustible material; and any lamp or gas burner now in use, not so arranged as to comply herewith, shall be so changed as to conform hereto by the owner thereof, within ten days after notice by the City Marshal or a policeman to such owner to make such change.

Sec. 4. Hereafter all stove-pipes put into use in any new building shall be put into brick or stone chimneys or stoves.

Sec. 5. A violation of the provisions of this ordinance shall, on conviction thereof, subject the offender to a fine of not more than fifty dollars, or to imprisonment in the City Jail not more than twenty-five days or to both such fine and imprisonment.

Adopted April 6, 1875.

H. F. RICE, President.

T. J. EDWARDS, City Clerk.

## ORDINANCE No. 14.

An ordinance in relation to opening streets.

The Board of Trustees of Carson City do enact:

SECTION 1. The present streets of Carson City may be extended to the boundary lines of said city, and new streets parallel with those now in use shall be opened, when shown to be necessary.

Sec. 2. The extension of any street or the opening of any new one shall be ordered by the Board of Trustees upon a satisfactory showing of the necessity thereof.

Sec. 3. Whenever in the extension of a street now in use or the creation of a new street private real property will necessarily be taken for public use, the same shall not be taken until compensation therefor has been made or secured.

In order to arrive at the amount of compensation thus to be made, the owner of real estate thus to be taken shall, within five days, after receiving notice that his said real estate is thus to be appropriated, appoint one appraiser, and notify the Board of Trustees of such appointment; and the Board of Trustees shall thereupon appoint one appraiser, and the two thus appointed, shall appoint a third. None of the appraisers thus appointed shall have any other or greater interest in the matter to be determined by them, than that of being citizens of said city. As soon as appointed, said appraisers shall take and subscribe an oath before the City Clerk or City Recorder, to fully, fairly, and impartially appraise the real estate in question, and a true award under according to the best of their skill and ability. As soon as such award is made and the amount thereof paid, it accepted by the owner of such real estate, or tendered if not accepted, or security for the payment thereof within a reasonable time given by said Board of Trustees, said Board may cause said street to be extended or opened over and upon the real estate so appraised.

Sec. 4. Any party dissatisfied with the award given as herein above provided for, whether the owner of the real estate, or the Board of Trustees, may appeal therefrom to the proper Court, within five days after the rendition of such award. Such appeal shall be taken by the service of a written notice thereon on the opposite party, and filing the same with the City Clerk, and by filing an undertaking in the sum of two hundred dollars, in gold coin of the United States, secured by at least two sureties conditioned for the payment of all costs and damages of whatsoever nature, which the respondent may sustain by such appeal. As soon as practicable, after the perfecting of such appeal the City Clerk shall transmit to the appellate Court all the papers pertaining to the appeal; and when the appeal is decided the result thereof shall be certified by the appellate Court to the Board of Trustees of said city. If on appeal an award be affirmed the same shall then be final, and be enforced accordingly, without delay; but if reversed, the same proceedings shall be had as originally, unless otherwise ordered by the appellate Court, or agreed upon by the parties. No more than two appeals shall be had by any one party for the same cause in the same case.

Sec. 5. The City Marshal shall execute or cause to be executed all orders of the Board of Trustees in relation to streets.

made pursuant to this or any other ordinance of said city; and if compensation therefor is not specifically provided, the Board shall allow him such sum as shall be deemed just, according to the circumstances of the case.

Adopted April 6, 1875.

H. F. RICE, President.  
T. J. EDWARDS, City Clerk.

## MARRIED.

In Carson City, April 6, 1875, by Justice C. A. Withers, Mr. Robert Clark to Mrs. Margaret P. Fumppett.

**Water! Water!! Water!!!**  
I have on hand and am receiving large quantities of Gas and Water Pipes which I offer very low. Also, have on hand a large stock of Brass Goods, Hose and Fittings. Workmen to lay pipe and do plumbing on the shortest notice. Work guaranteed.
